Charging \$100 per filing to stop a frivolous trademark is complete bullshit. You as a government employee are paid by the tax payers to enforce the law and be on the look out to protect people from taking advantage of the law. Their has always been a standard referred to as the spirit of the law or what a law was intended to prevent or safeguard. You are paid to do a job, so do your job and don't ask for more money from people who are looking out for the good of the country from those trying to abuse the system.
