SECTION 2.— INTERNATIONAL CLASSIFICATION

The short titles associated below with the international class numbers are terms designed merely for quick identification and are not an official part of the international classification. The full names of international classes are given in section 6.1 of the trademark rules of practice.

The designation "U.S. Cl." appearing in this section refers to the U.S. class in effect prior to Sep. 1, 1973 rather than the international class which applies to applications filed on or after that date. For adoption of international classification see notice in the OFFICIAL GAZETTE of Jun. 26, 1973 (911 O.G. TM 210).

For the best trademark search results, consider using a service that allows you to filter your search by specific criteria such as type of goods or services, geographical location, or specific terms. This can help narrow down the results to find the most relevant trademarks. Additionally, you might want to consider exploring additional resources, such as patent offices or industry-specific databases, to gain a comprehensive understanding of the market and legal landscape related to your trademark search.
